

Rocket Profits - Ruth King

You don't want your business to "crash and burn" like the early rocket experiments. Scientists eventually got it right. They learned from their mistakes and now rockets quickly get to their destinations. You can rocket your profits using easy to implement processes.

Discover where you really are now, realistic profit planning, and the fastest way to get there using the 10 Laws of Profits and the 10 Rules for Cash.

Leave this session with what you must do to avoid "crashing and burning" and quickly get to where you want to go.
